Tyranny leads to revolution,
The natural man worships
brave. His god is a destroyer
of the world. His favorite
quotation, "Vengance is mine,
I will take it."

The intellectual man works
 his ideal of God as an
 intellectual giant. Moral
 standards are enthroned as
 the ruling themes of life.
 The world defines its poets
 and philosophers. Confuse the

Man of ironals takes the ⁽³⁾ 3
place of Christ as the guide
and goal of the educator
demns.

But the spiritually quick
are not satisfied with
these inadequate ideals of

deity - they lack the authority of
scripture and the innate

man as to the character of
the outcome and only
source of existence.

in spiritual understanding

until he arrives at a correct
concept of God as the immanent
principle of existence.
