Silent Prayers: The name
 of the Lord Jesus
 is magnified in

The tap-root of every
thought and act is
desire.

Darwin, Spencer - School
of evolution - desire in
belly fish for light without
is sent to surface
and eye is built.

Desire is the impetus
 that pushes man on to
 conquest - the direction
 which he may take
 in attaining the end
 is of his own choosing.
 Thus desire is always
 good, ~~but~~ regardless of
 the evil conditions

that seems to have
 evolved from its exercise

In human body are
 great body building
centers of desire called
 plexus. Solar plexus.

Spleen means desire.

Tent building structure
 typical of mental body.

Tents and tabernacles to ^[5] 5
be succeeded by temple of
permanence, Jesus ~~the~~
compared his body to the
Great Temple in Jerusalem,
Paul was a tent-maker -
that is a body-builder,
but he did not build
the Christ body because
he was a fighter. David

Could not build the ^[6] 6
great Temple for the
same reason - the Lord
said he was a man of
war.

Man can suppress desire
and stave it - or
he can culture and
increase it - at the

Same time giving ^[7] 7
it proper direction
under the Pine Knot.

The desire to heal
generates a powerful
healing current,
that radiates through=
out the whole field

of consciousness, until
 it charged with healing
 power everything it
 touches. Paul has this
 health giving conscious-
 ness so strongly developed
 that his life and spirit
 from his body heal the

Sick and cast out demons. ^[9] 9

The law of righteous ex-
pression of desire.

Paul preaches remission
of sins and purification.
But certain Jews at
Ephesus (exorcists) tried
to use the law without

the necessary cleansing
and the evils turned upon
them and rent them.

People in this day want
healing formulas and
~~the~~ healing statements,
thinking by the use
of them to do the
works of those who are
following Christ.

How they fall short,
