4th Dimension
Lesson 1 - January 15th 1936

The Kingdom of the Heavens, described in Parables by Jesus, and the Fourth Dimension of Modern Science, partly demonstrated and magnificently anticipated by M.D.
Matt. 3:2 Heavens—sky, air, Ouranos 136 times

John the Baptist came preaching in the wilderness of Judea, saying, "Repent ye; for the kingdom of heaven is at hand." According to its original Greek he said, "Repaim, because the royal majesty of the heavens has approached," (Matt. 5:16) Jesus said—Guru. Then, let your light shine before men, that they may see your good works, and glorify your Father of yours in the heavens, light of the kingdom, thereby giving glory to the Father.
Matt 5:44  Love—attraction—one of Jesus said, the active principle of faith.

But I say to you, Love your enemies, and pray for those who persecute you, that you may resemble that Father of yours in the heavens, who makes his sun rise on the evil and the good and sends rain on just and unjust.

The Lord’s prayer is not addressed to the Father in a place called Heaven, but begins, “Our Father, those in the heavens, Revered be thy name.”
Matt. 8:11 - Where the dead are
"Many will come from the East and from the West, and will
recline with Abraham and Isaac and Jacob, in the Kingdom
of the heavens."

Matt. 10:32
"Whoever confesses me before men, I also will confess him
that Father of mine in the heavens."

Matt 11:12

The Kingdom of the Heavens, or other realms, can be entered by sheer will power, but it is unlawful, and those who so enter must again return to earth.

Jesus said,

And from the days of John the Immovable till now, the Kingdom of the Heavens has been forcibly assaulted, and the violent seize it. For all the prophets and the laws instructor till John, and if you are disposed to receive it, he is that Elijah who is to come.
Matt 13:32 Teachers that the Kingdom of the heavens is the source of vegetable life in the parable of the mustard seed.

Matt 13:32 teaches that it is the interpenetrating question of life of all substances.

The women who put mingled "three measures of meal, take the lowest fermnted.

Matt 16:11 of The spiritually mind have power to control the primal elements of the ether or heavens.

Jesus said to Peter: "What an answer shall we show in earth should I show in heavens." etc.
The demonstrations of physical science prove that there is an invisible all pervading energy which they have named Variance. It is the source of heat, light, power, even life. It is very real and tangible, possesses an incalculable amount of energy. N-rays, X-rays, Ultra Violets and Cosmic rays of many kinds. Not yet conscious of the intelligence pervading the cosmic order, as now Jesus. “It is the Father’s good pleasure to give you the kingdom.”

And Wallace in the story "Bakhter" gives the mystical view of Heaven:

"There is a kingdom on the earth, though it is not of it, a kingdom wider bounds than the earth—wider than the sea and the earth—wider than the sun and the stars, though they were rolled together as a giant's globes and spread by the beating of harpoons. Its existence is as real as our hearts and as our journey through it from birth to death without seeing it; nor shall any man see it until he has known his own soul. In its dominion there is glory such as you have never imagined, original, incomparable, and only partly appreciated by man. What it is—and what it is for, how it may be reached—no one can know until the Child— that is the Saviour— comes to take possession of it as His own."

According to Genesis all creation proceeds from the Word of God, hence the essence of everything is mind.

A certain eminent scientist once said that matter may be pure mind in process of evolution.

Prof. Russell says that as we study Jesus' teaching in the light of modern science we become convinced that he redefined light, energy, motion and space. He proved this scientific insight by his power to manipulate matter and release its creative potentialities.
Science has progressed from the materialistic to the electronic. It has demonstrated that man is a necessary factor in solving the development of earth, and that earth is essentially spiritual and must eventually be resolved back into its original elements.

But Christianity, popularly, teaches the same old material conceptions of both heaven and earth. Earth to the church is still matter, and heaven a place in the skies where good people go after death. The modern scientist who teaches the absurdity of these doctrines, is
imprisoned, as was Galileo's, nor do they become the
modern Bruno. But it is obvious
to a true Christian, a metaphysical
disciple of Tertullian, the greatest
metaphysician who ever lived. For
this reason, that the orthodox
Church was a thousand years behind the progressive
thought. The facts of
science are true, and the
mythical experiences in religion
to the truths of science show
that they take their origin
originates from the same
source.
Science has moved, step by step, from the theory of the atom as the ultimate source of all existence to the invisible yet electronic energy as the source of the atom.

Man should study the 4th dimension not only as modes of matter, but as modes of mental stimulation and by ideas.

Science tells us that everything in the manifest world came from eternal elements.

By use of electricity vegetables and grains can be produced in 30 days that ordinarily take 4 months.
Jesus accomplished a like result in 30 minutes when he multiplied loaves at first.

Saul told Samuel where his lost animals were, and Samuel interpreted dreams of kings.

Joseph, son of Israel, was told by an angel to flee into Egypt with young child.

Jesus was transfigured.
